INTERNSHIP PROGRAM

MATH AND SCIENCE COMING ALIVE

The Mentis Internship Program recruits local high school students in good academic standing who reside in the HUBZone area of Manchester, NH. Successful youth with good attitudes and high motivation to work and learn have come through various avenues including non-traditional avenues like the Manchester Police Athletic League, The Salvation Army, and Manchester's Office of Youth Services.

Mentis makes a serious commitment of its resources to support the internship program by providing short courses in STEM related disciplines, student engineering activities and mentoring activities.

In many ways the internship program has provided Mentis employees a new sense of purpose in their work mentoring interns, and seeing the results of their efforts truly make their jobs more meaningful and satisfying. This enrichment program has proven to be beneficial, providing life-changing experiences for the interns as well as Mentis employees.

- Build Character
- Work Hard
- Prepare Deliverables
- Enhance Efficiency
- Be Creative
- Ask Questions
- Increase Desire to Learn
